Since 1919, Belleville Wire Cloth has been a leader in the wire mesh and wire cloth industry. The company manufactures and maintains one of the largest inventories of wire cloth products in the United States. With warehouse locations on both the East and West coasts, Belleville Wire Cloth is very effective in meeting the needs of customer's time restraints. If required, many specifications can be shipped within 24 hours, including DFAR preference to specialty metals (DFAR Clause 252.225-7014). Backed by more than 80 years of experience, Belleville Wire Cloth is approved suppliers to some of America's largest corporations including General Electric (GE), Raytheon, Rolls Royce and Delphi, as well as the U.S. Government.

Belleville Wire Cloth, established in 1919, remains committed to high quality products and service at all times. For more information, call (973)239-0074 or visit www.bwire.com.
