

Victaulic to Exhibit Project Lifecycle Solutions at 2017 AHR Expo

LAS VEGAS – 2017 AHR Expo (Booth C4324) – January 30 to February 1, 2017 – With the help of virtual reality technology, Victaulic will showcase its innovative pipe fitting services, including the world's first grooved mechanical joint for saturated steam systems, at this year's International Air-Conditioning, Heating, Refrigerating Exposition (AHR Expo) in Booth C4324.

Visitors to the booth can experience Victaulic-optimized mechanical and fire protection pump rooms via a 3D virtual reality headset. They can also view the newest additions to Victaulic's complete PHA system solution, including vibration isolation pump drops, pressure reducing valve (PRV) stations, the RG5200i intelligent roll grooving tool, and the 2016 AHR Innovation Award Winner, the Style 870 rigid coupling for saturated steam and condensate piping.

"Victaulic has worked with its customers in the HVAC industry to develop reliable and durable products that can be used across the entire piping system. We are excited to demonstrate these offerings and discuss how our solutions can be tailored to fit our customers' needs at the AHR Expo this year," said Rick Bucher, Victaulic's Executive Vice President of Technology and Product Development.

Victaulic provides comprehensive solutions to the HVAC industry's most pressing challenges through its extensive services and technologies. From the use of its Construction Piping Services (CPS) division to help streamline workflows and provide more accurate project estimates, to its complete offering of couplings, valves, fittings, and other accessories for hydronic and potable water piping systems, Victaulic is a trusted partner for owners, engineers and contractors throughout the project lifecycle.

For more information about Victaulic and its new products for the HVAC industry, visit Booth C4324 at the 2017 AHR Expo or visit www.victaulic.com.

About Victaulic

Since 1919, Victaulic has been the originator and world's leading producer of mechanical pipe joining solutions. Used in the most demanding markets, Victaulic innovative piping technologies and services put people to work faster while increasing safety, ensuring reliability and maximizing efficiency. The company has 12 manufacturing facilities and 31 branches worldwide with 3,600 employees who speak 43 languages across the globe. With over 1,900 global patents, Victaulic solutions are at work in more than 140 countries across diverse business lines including oil and gas, chemical, mining, power generation, water and wastewater treatment, military and marine, as well as commercial building and fire protection.
