**TURBOTORCH® RE-ENTERS FILLER METAL MARKET, NOW OFFERS  
FULL LINE OF ESAB ALL-STATE® BRAZES, SOLDERS AND FLUXES**

*Florence, S.C.* – TurboTorch®, an ESAB brand, today announced that it now offers the full line ESAB All-State® brazes, solders and fluxes, as well as a broad selection of ESAB’s solid steel MIG wires, aluminium MIG wires, Flux-Cored wires and Stick electrodes. TurboTorch made the announcement from Booth #C3734 at the 2017 AHR EXPO, Las Vegas Convention Center. Premiere products include All-State Sil-Flo 15 (15% silver) self-fluxing brazing alloy for joining copper to copper, All-State Gallover to restore and protect galvanized areas, All-State Rubbon 55 self-fluxing solder for joining and patching holes in aluminium at low temperatures, the lead/cadmium-free All-State AquaSafe 100 and DynaGrip 430 solder and flux, All-State 50/50 lead/tin solder and All-State Duzall Flux for general purpose soldering.

Under previous ownership, TurboTorch had exited the filler metal business. ESAB acquired the TurboTorch brand in 2014, as well the Victor®, Thermal Dynamics® and Tweco® brands. Select products from all these brands, as well as ESAB welding power sources and filler metals, are now available through TurboTorch sales channels.

“As part of ESAB, TurboTorch provides HVAC/R and plumbing contractors with the broadest, highest-quality product portfolio in the industry,” says Paul Eckhoff, Director, Product Line Management, ESAB. “Our brands have earned the trust of contractors for decades. With the addition of the ESAB All-State products to our catalog, we have an unmatched offering for any brazing, soldering, welding or cutting application.

TurboTorch has set the highest industry standards for performance, reliability, durability and safety since 1967. The company's Extreme™ air-swirl torches, available in standard and self-lighting models for acetylene and MAP-Pro™/LP gases, are the preferred choice of contractors and do-it-yourselfers.

ESAB Welding & Cutting Products, established in 1904, is a recognized leader in the welding and cutting industry. From time-honored processes in welding and cutting to revolutionary technologies in mechanized cutting and automation, ESAB's welding filler metals, equipment, and accessories bring solutions to customers around the globe.
