Cooper&Hunter Introduces Karolina Series Mini Split Air Conditioners at AHR Expo 2017

LAS VEGAS, Feb. 1, 2017 (AHR Expo Booth N12131) – Globally recognized HVAC equipment manufacturer Cooper and Hunter continues to strengthen its presence in the North American market with the recent launch of the most advanced and beautiful Karolina Series. This innovative cooling solution is known to deliver high energy efficiency and a luxury design for a reasonable price.

Cooper&Hunter is delighted to announce that highly recommended Karolina Series of mini split air conditioners are now available in the United States and Canada. One of the leading brands of climate control equipment, Cooper&Hunter has been a familiar name in the European HVAC market for many years. The company has recently set their sight on the North American market, and the Karolina Series has been launched in this region as an integral part of the company's expansion plan.

The Karolina series from Cooper and Hunter boasts of an innovative mini split solution that offers a high-end design and high energy efficiency for an extremely competitive price range. The system comprises of wall mounted heat pumps that are embedded with activated carbon and silver ion filters, intended to prevent bacteria propagation and ensure better performance. Karolina models boast high performance - up to 27 SEER and EnergyStar certification.

Advanced features such as WiFi operation make the Karolina series special and easy to use even you are away from home.

Some other noteworthy features of the Karolina series are

- Waterfall Heating Airflow
- Gold Fin Condenser
- I-Feel Function
- Intelligent Defrost & Pre-heating
- LED Display
- Memory Function
- Fan Delay Function
- Energy Saving Function

Announcing the launch of Karolina mini split air conditioners in the United States and Canada, the CEO of Comfortside LLC Marat Terchiev said, "We are excited to introduce our Karolina series air conditioners to the North American market. Several key features of the Karolina series are tailor-made to the climatic conditions of the continent and local consumers' insights. Check them out if you are looking to buy an effective and high quality air conditioner suitable for any season, without breaking your bank."
